

Telehealth Workflow

Workflow may vary depending on who is involved in process; providers may manage entire Telehealth E/M workflow. While staff can support delivery of services, only provider time can be counted towards billable service.

¹Consent must include notification of cost-sharing; verbal consent is sufficient. Once consent for Communication Technology-Based Services (CTBS) has been obtained, it will cover all CTBS for one year.

²Patient should be instructed on how to prepare for a telehealth visit. See [Patient Instructions for a Successful Telehealth Visit](#) for further guidance.
